Vision Services Diagnosis

Effective June 1, 2013, Idaho Medicaid is requiring providers to order all eyeglass lenses, frames, and contact lenses from the new optical products supplier, Classic Optical Laboratories. Please select the most appropriate diagnosis when placing the order.

- 367.0 hypermetropia (far-sightedness)
- 367.1 myopia (near-sightedness)
- 367.20 astigmatism, unspecified
- 367.31 anisometropia
- 367.4 presbyopia
- 367.9 unspecified disorder of refraction and accommodation
- V45.61 status post cataract extraction

Vision providers can contact Classic Optical Customer Service using the following information.

Classic Optical
